

! WARNING

Rotating equipment

Manhole cover rotates during opening and closing.

Make sure no one is near manhole during operation.

! WARNING

Fall/Trip hazard

Elevated work area exists when servicing manhole cover.

Appropriate fall protection must be in place when servicing.

! WARNING

Pinch point

Pinch points exist near the actuator and cover.

Make sure no one is near manhole during operation.

! WARNING

Read operator's manual

Failure to follow operating instructions could result in death or serious injury.

Read and understand the safety and operating instructions before operation.

! WARNING

Compressed air

Contents may be under pressure when manhole cover is closed.

Tank must be depressurized before opening cover.

! WARNING

Remote operation

Manhole cover is controlled remotely.

Manhole cover should not be operated when someone is on top of trailer.
